

KERRICO corporation

PICTURED: SOLID WHITE WITH WAVE BOWL

about us

Kerrico Corp. originated in 1978 under the name of J & J Marble. Our current owner Robert Kerris, Jr. purchased the business in 1986 and the name was changed to Kerrico Corp. The company moved from their original location to a new building of 10,000 sq. ft. and since increased to 35,000 sq. ft. due to increased production demands. As we have grown, so have our product offerings.

Mission

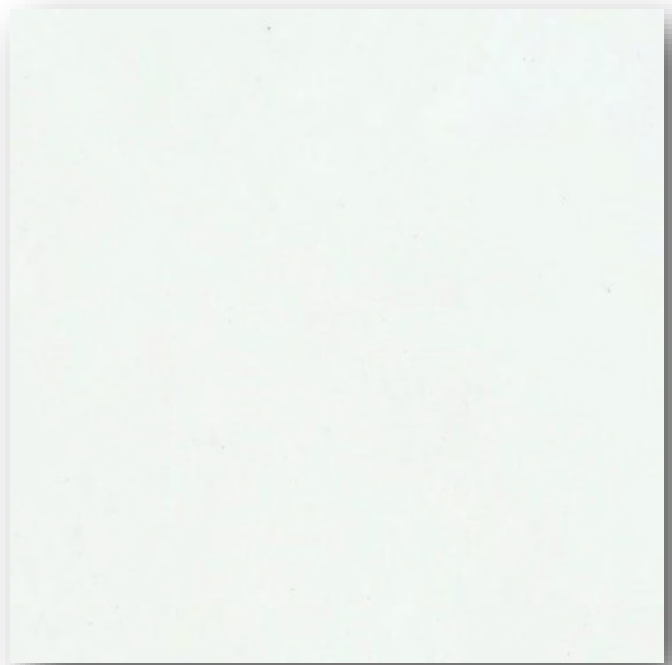

Kerrico takes pride in being an American-Made company with an experienced staff – our average employee boasts 20 + years with us. We are committed to manufacturing a quality product that will exceed our customers' expectations and to providing excellent customer service to back it up. Our design options are limited only by your imagination!
